WORK EXPERIENCE

CTO + **Senior Full-Stack Engineer, Private Prep** - *Feb 2016 - present* - Remote + NYC

⇢ Highly autonomous, primary contributor building applications from the ground up through thousands of annual commits and modern full-stack web development

⇢ Behavior-driven development and unit testing with React and Ruby on Rails delivering a best-in-class online test application, a billing solution with a day-of capture rate of 98%+ (15MM+ annually), and a custom CRM with sales pipelines

⇢ Lead an all-remote team, providing mentorship and growth opportunities to junior engineers, managing projects using agile methodologies and documentation in Notion, and communicating asynchronously through Slack and email

Web Designer, Third Principle (Agency) - Jan 2015 - June 2016 - Denver, CO

⇢ Designed and developed Wordpress websites for clients (HTML, CSS, Javascript)

⇢ Consulted across business operations from brand strategy to growth planning

⇢ Authored messaging matrices and marketing plans

Previous Experience

⇢ Developed a multivariate regression model for low-cost water testing in Thailand

⇢ Spearheaded dozens of sustainability initiatives for University of Denver

EDUCATION

2016 Fullstack Online Bootcamp, Firehose Project

2015 Frontend Web Development Nanodgree, Udacity

2014 B.Sc.Ch. in Chemistry (ACS), University of Denver

2014 B.Sc. in Biological Sciences, University of Denver
